I. Battle of the Skills CTE construction contest

Oakland High School hosted the third annual “Battle of the Skills” contest in January, and the event was an opportunity for RCS students in construction classes from multiple high schools to come together and test their knowledge against one another. Students from Oakland, Smyrna and Cannon County High School competed in the competition. Rockvale High’s construction teacher observed the contest and plans to join next year.

Teachers, Mr. Haynes from Oakland High and Mr. Pitts from Smyrna High spoke in more detail about the competition and shared a video with the Board.

JA BizTown integrates classroom instruction with a full-day excursion to a simulated town. This highly regarded educational opportunity empowers elementary school students to run banks,

oversee restaurants, write checks, and participate in mayoral elections, facilitating a tangible connection between classroom concepts and real-world applications.

Several student program participants have been invited to share their experiences, alongside Mrs. Akers and Mrs. McHenry, who will provide an overview of Biztown. Our guests include:

- Joci Lanier (5th grade)
- Shepard Holder (5th grade)
- Tala Hasan (4th grade)

III. Social Media Multi District Case

Social Media Multi District Litigation Suit: The Rutherford County Board of Education has been asked to join in suing certain social media companies, including Facebook, Instagram, Tik Tok, Snapchat and YouTube for damages arising to students caused by their social media products. The suits are being brought in a multi-district litigation matter which is being heard in California. Social media has become a fixture in the lives of students and become an obsession for many students. Many students seem to be addicted to these products. These products have created multiple problems for schools and are alleged to have caused or exacerbated mental health issues for students and led to other damages. Social media companies have often failed to implement sufficient measures to protect minors and students from harmful content. Social media is designed to lure and attract viewers to their content with inadequate measures to verify age or mental condition. Multiple lawsuits are alleging the social media companies have failed to use adequate age verification measures, have insufficient parental controls, program endless scrolling, generate auto notifications, and utilize algorithms to target adolescent and teen students. If the Rutherford County Board of Education, elects to join in the multi-district litigation, the legal firms handling the case will be responsible for the court costs and there will be no attorney fees owed to the firms unless there is a monetary judgment or settlement obtained. In the event there is a monetary judgment or settlement obtained, the attorney's fees will be 1/3 of the amount collected. The suit would be filed against Meta Platforms, Inc., Facebook Holdings, LLC, Facebook Operations, LLC, Instagram, LLC, Siculus, Inc., Meta Payments, Inc., Snap, Inc., Tiktok, Inc., Bytedance, Inc., Google LLC, Youtube LLC and other social media companies determined by the attorneys handling the case to be responsible for damages.

Motion made by Mr. Tidwell and seconded by Mrs. Rosales, for the Board of Education to proceed to file suit in the multi-district litigation as presented.

Vote: All yes
Motion passes.

11. INSTRUCTION (TAB 3)

Resolution Requesting the State to Establish a Chess Program in Schools

Research has shown that chess instruction has a positive effect on math and cognitive ability in primary and middle school students. Chess training has also been linked to improved skills in critical thinking, problem solving, planning and memory.

The skills learned in chess reach beyond the academic setting and lay a foundation upon which students may grow and develop intellectually and professionally. Implementing a chess program within public schools can be expected to enhance students academically and allow students to work together in a program which fosters intellectual growth among their peers.

Motion made by Mr. Tidwell and seconded by Mrs. Maxwell, to adopt the Resolution requesting that the State adopt a chess program for public schools which will be accessible to all students.

**Vote: All yes
Motion passes.**

12. ENGINEERING AND CONSTRUCTION (TAB 4)

Prospective School Sites

Over the last several months, the Board has looked at multiple potential sites for new schools. As is the case with any development, each prospective site has its own unique factors that must be considered in order to develop the property for a school. These include such factors as location, topography, soils, sewer utilities, water utilities, and road access. Most of these factors affect the overall cost of development on a parcel. These factors will be examined at the Board meeting to see which of the parcels, if any, the Board is interested in pursuing for a prospective school site or sites. If the Board votes to pursue a contract on a property or properties, the contract would be subject to, and be brought back to, the Board for approval.

Motion made by Mr. Tidwell and seconded by Mrs. Darby, to authorize Board Attorney Jeff Reed to enter into negotiations for a contract for the possible purchase of the following property subject to final Board approval: 5404 Lee Rd.

**Vote: All yes
